Our Promise

Since 1989, BREG, Inc. has pioneered premium orthopedic and postoperative products. With a solid commitment to customer-driven innovation, we have established ourselves as leaders in the orthopedic industry by delivering world-class solutions that address the critical needs of our most valued asset – our customers.

BREG's Strategic Mission reflects our emphasis on our customers: provide high value, differentiated Sports Medicine solutions for non-operative healing and pain relief. At BREG, we build the right product and deliver it when our customer needs it. We provide the quality you expect and the service and value you demand. Our key performance indicators are focused to concentrate our efforts on achieving high level, accurate, reliable service.

BREG offers the convenience you need including a toll free service line that is answered promptly by a knowledgeable, dedicated customer service representative. We also provide ease of access through BregStore, our business-to-business website that allows you to place orders, track shipments, and check the details of your account 24 hours a day, seven days a week.

We are continually expanding our product offerings to better serve our customers. BREG offers an extensive line of products including a full range of orthopedic bracing and cold therapy as well as a range of orthopedic practice solutions that are designed to meet the changing needs of our customers worldwide. As we grow and expand into new and exciting markets, we will uphold our continuing pledge to provide quality medical products and services with exceptional value. At BREG, we define value as the measure by which our performance exceeds our customers' expectations.

FUSION® Technology

With its revolutionary design, BREG's FUSION functional knee braces provide optimal ACL, PCL and collateral ligament protection without hindering the user's mobility. Its sleek frame is made of lightweight, high-strength aluminum, making it extremely low-profile. FUSION also features BREG's proprietary ProForm™ technology, which utilizes Zytel®, a strong yet flexible polymer that allows FUSION to conform to the shape of the leg, resulting in a precise, contoured fit. This allows the brace to engage sooner, to resist abnormal knee displacement, and reduce injury-causing elongation of the ligaments. The ProForm technology also enables the brace to accommodate the changing axis of the knee, keeping FUSION solidly in place to defend the knee. FUSION also features BREG's standard polycentric hinge design, internally mounted cushioned straps, and pivoting strap tabs.

LIGAMENT BRACING

FUSION COLOR / PATTERN

Take your individual performance to the next level with FUSION brace color and pattern options.

Note: Colors represented above have been recreated to match brace colors as closely as possible. Color/Pattern option available on custom FUSION braces only. Contact your local sales representative for pricing and additional color/pattern options.

CUSTOM COLORS/PATTERNS AND LABELING ALSO AVAILABLE.

FUSION

BREG's FUSION provides optimal protection for the ACL, PCL and collateral ligaments. Ideal for normal daily activities as well as athletic endeavors, this brace is designed using ProForm technology, which creates a comfortable, precise fit that won't compromise mobility. Available in custom and off the shelf (OTS) versions.

X2K® Technology

With the inherent strength of its distinctive Diamond Design, the X2K is proven to optimize resistance against abnormal varus/valgus motion, providing excellent support for the ACL, PCL and collateral ligaments. Available in custom and off the shelf (OTS) versions, X2K braces feature soft, contoured frame pads, internally mounted straps and PivotPoint removable strap tabs for increased comfort and fit. The X2K Diamond Design allows for extensive adjustability of the thigh and tibial cuffs, making the X2K one of the most versatile functional braces available.

X2K

Designed to provide optimal varus and valgus stiffness, the X2K is available in custom and off the shelf (OTS) versions, powdercoat and matte plastisol coverings, as well as with standard or adjustable hinges.

	20056	Compact X2K-PTO Custom HP w/ Adjustable Hinge

XX = Size number. See sizing chart on page 41.

FUSION® OA

With its sleek, lightweight design, FUSION OA provides optimal medial or lateral* off-loading for unicompartmental osteoarthritis. The brace features BREG's exclusive adjustable hinge technology, which provides an effective valgus load to the knee. This hinge utilizes a telescoping condyle with our exclusive, user-friendly thumbwheel dial design that allows patients to easily adjust the level of pain relief without using a tool. The FUSION OA hinge also incorporates an offset gauge that clearly displays the amount of load applied in half-millimeter increments. Additionally, since FUSION OA features BREG's ProForm technology, it contours to the leg providing unhindered mobility, enhanced comfort, and superior ligament protection making it ideal for a variety of uses. As an OA brace, the FUSION sets the standard when it comes to suspension — it just stays where you put it!

* FUSION OA Lateral - Available Late 2009

FUSION OA

For patients suffering from medial compartment pain, FUSION OA is the solution. This low-profile brace provides pain relief combined with fit, suspension and unequalled comfort.

Wrinklecoat Custom	01208	FUSION OA Custom
Color / Pattern Custom	01216	FUSION OA Custom Color / Pattern
Wrinklecoat OTS	120XX 121XX	FUSION OA, OTS, Left, XS - XXL FUSION OA, OTS, Right, XS - XXL

FUSION Women's OA

By combining the advantages of FUSION OA with a sleek frame that fits discreetly under clothing, FUSION Women's OA is the ideal brace for female patients suffering from osteoarthritis.

Wrinklecoat Custom	01204	FUSION Women's OA Custom, Wrinklecoat
Argento White Custom	01202	FUSION Women's OA Custom, Argento White
Color / Pattern Custom	01217	FUSION Women's OA Custom, Color / Pattern
Wrinklecoat OTS	108XX 109XX	FUSION Women's OA, OTS, Left, XS - XXL FUSION Women's OA, OTS, Right, XS - XXL

XX = Size number. See sizing chart on page 41.

Solus®

For selected patients with radial compartment OA, our Solus brace brings the patented thumbwheel hinge and all of the benefits of our proven Fusion OA design — pain relief, suspension, comfort — with a more streamlined, single hinge frame.

Solus Custom	19101	Solus Custom, w/ Adjustable Hinge
Color / Pattern Option	19102	Solus Custom, Color / Pattern Option w/ Adjustable Hinge
Solus, OTS, Left	154XX	Solus OTS, Left, S-XXL
Solus, OTS, Right	156XX	Solus OTS, Right, S-XXL

FUSION XT OA

FUSION XT OA is designed for OA patients who participate in high-impact activities. This brace features a high-strength frame that utilizes BREG's standard adjustable hinge design for maximum durability. *Note: FUSION XT OA requires the use of a tool (included) for off-loading adjustments.*

Wrinklecoat Custom	01205	FUSION XT OA Custom, w/ Adjustable Hinge
Color / Pattern Custom	01218	FUSION XT OA Custom, w/ Adjustable Hinge
Wrinklecoat OTS	027XX	FUSION XT OA, OTS, Left, S - XXL
	028XX	FUSION XT OA, OTS, Right, S - XXL

XX = Size number. See sizing chart on page 41.

X2K® CounterForce Plus

The X2K CounterForce Plus is proven to provide exceptional control of varus/valgus forces associated with unicompartmental osteoarthritis of the knee. Each custom brace is designed with a supplemental varus or valgus force, and since the unique hinge system on this brace is fully adjustable, the patient or clinician has the option of adding additional load/force, up to 12 mm, to further alleviate the symptoms of OA. The X2K Counterforce Plus features extended frame pads which provide additional comfort to the anterior tibia region, along with gel condyle pads to help disperse the load at the knee; this allows for longer wear time and increased comfort.

X2K CounterForce Plus

The ideal brace for creating varus or valgus loads across the joint to relieve pain from unicompartmental OA, as well as to reduce shear forces following procedures such as meniscal repairs, chondral defect procedures, and cartilage injections.

Powdercoat	20003	X2K CounterForce Plus Custom
Matte Platisol	20006 20012	X2Km CounterForce Plus Custom X2Km Hi-Performance (HP) CounterForce Plus Custom
Wrinklecoat	20009	X2K Hi-Performance (HP) CounterForce Plus Custom

X2K Women's CounterForce Plus

The shorter frame length offers women a proportionally better fit than the standard X2K version.

Powdercoat	20015	X2K Women's CounterForce Plus Custom
Matte Platisol	20018	X2Km Women's CounterForce Plus Custom

Compact X2K CounterForce Plus

A shorter brace than the standard X2K, recommended for patients 5'6" and under.

Powdercoat	20021	Compact X2K CounterForce Plus Custom
Matte Platisol	20024	Compact X2Km CounterForce Plus Custom
Wrinklecoat	20053	Compact X2K Hi-Performance (HP) CounterForce Plus Custom

XX = Size number. See sizing chart on page 41.

X2K-OA

For patients suffering from osteoarthritis of the knee requiring an off-the-shelf brace, the X2K-OA provides many of the same benefits as its custom equivalent, the X2K CounterForce Plus. The X2K-OA offers 12 mm of travel on each side, gel padding, an extended tibial frame pad, and silicone strap padding.

Powdercoat OTS	251XX	X2K-OA OTS w/ Adjustable Hinge, Left, S - XXL
	252XX	X2K-OA OTS w/ Adjustable Hinge, Right, S - XXL

X2K-OA Women's

The X2K-OA Women's frame is compact and lightweight for a more comfortable fit for women.

Powdercoat OTS	255XX	X2K-OA Women's OTS w/ Adjustable Hinge, Left, XS - XXL
	256XX	X2K-OA Women's OTS w/ Adjustable Hinge, Right, XS - XXL

Compact X2K-OA

The Compact X2K-OA is specifically designed for patients 5'6" and under.

Powdercoat OTS	253XX	Compact X2K-OA OTS w/ Adjustable Hinge, Left, XS - XXL
	254XX	Compact X2K-OA OTS w/ Adjustable Hinge, Right, XS - XXL

XX = Size number. See sizing chart on page 41.

Undersleeve

Available in cotton or 1/8" neoprene, these undersleeves fit comfortably under BREG's functional braces and are ideal as a barrier for sensitive skin, as well as for soft tissue containment.

- 0985X Undersleeve, Cotton, XS - XXL
- 0735X Undersleeve, Neoprene, XS - XXL

FUSION XT Slide Guard

The FUSION XT Slide Guard is made of durable neoprene that wraps around the hinges to provide lateral protection to the brace during sliding. The slide guard is ideal for sports such as football, rugby, baseball/softball and soccer.

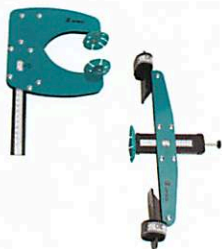

- 22000 M/L
- 22001 XL/XXL

Brace Cover

A lightweight padded cover that protects the brace during contact with another person or during sliding.

- 1099X Brace Cover, X2K, S - XXL
- 1008X Brace Cover, FUSION, Compact X2K and X2K Women's, S - XXL

Custom Brace Measuring System

- 06560 Custom Brace Measuring System

Brace Bags

The FUSION Brace Bag is constructed of durable canvas, and the BREG Brace Bag is made of black nylon. Both bags feature a large front-zippered pocket, end pockets, top-mounted handles, and a removable shoulder strap. The bags measure approximately 20" in length, and are large enough to accommodate a brace along with other items.

- 76529 FUSION Brace Bag
- 70057 BREG Brace Bag

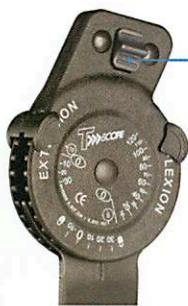

Protective Patella Cup

This protective cup is ideal for patients requiring patellar protection. It is lined with foam padding and conveniently attaches to the hinges of most X2K braces.

- 70058 Protective Patella Cup

X = Size number. See sizing chart on page 41.

Full extension drop lock style button for ease of use (-10°, 0°, 10°, 20°, 30°).

Post-Op Bracing

BREG's line of premier Post-Op braces feature the patented T-Scope hinge, which allows the patient or physician to control range of motion with ease. This user-friendly system features a drop-lock style button that enables the user to easily lock/unlock the brace in the desired extension position.

T-Scope®

The most versatile of all Post-Op braces, the T-Scope features telescoping hinge bars that are adjustable from 17" to 27" along with friction locks to easily secure the brace in position once the desired length is selected. The T-Scope also has quick clip buckles and strap lock clips that allow for easy fitting. Universally sized.

- 07714 T-Scope Post-Op
- 07715 T-Scope Post-Op, XL = 30-35" thigh circumference (measurement taken 6" above mid-patella)
- 07716 T-Scope Post-Op, Full Foam
- 07717 T-Scope Post-Op, Full Foam, XL

Post-Op

Featuring the premier T-Scope hinge, the upper and lower hinge bars on the Post-Op can be easily contoured or shortened for an optimized fit, and the foam may be trimmed to suit smaller patients. Universally sized for easy stocking. *Note: Short < 32" inseam. Long > 32" inseam. XL = 27" - 35" thigh circumference.*

- 00112 Post-Op, Short
- 00113 Post-Op, Short, XL
- 00114 Post-Op, Long
- 00115 Post-Op, Long, XL

Post-Op Lite

The Post-Op Lite offers the same function as our regular Post-Op, but with reduced foam coverage for greater breathability and comfort. *Note: Short < 32" inseam. Long > 32" inseam. XL = 27" - 35" thigh circumference.*

- 00116 Post-Op Lite, Short
- 00117 Post-Op Lite, Short, XL
- 00118 Post-Op Lite, Long
- 00119 Post-Op Lite, Long, XL

Post-Op Rehab

The Post-Op Rehab is a shortened version of the Post-Op brace, measuring approximately 15" in overall length.

- 00123 Post-Op Rehab

See sizing chart on page 41.

Quick Fit Post-Op

Designed for ease of use, the foam thigh and calf wraps on the Quick Fit Post-Op are sized to fit the leg right out of the box. The combination of easy to use buckles and Velcro® straps makes the Quick Fit is one of the easiest Post-Op braces to apply.

- 0014X** Quick Fit Post-Op, Short, S - XL
- 0015X** Quick Fit Post-Op, Long, S - XL

Post-Op with Shells

For additional rigidity and stability, the shells enable full circumferential tissue containment. The polyurethane shells are adjustable and universally sized. *Note: Short < 32" inseam. Long > 32" inseam.*

- 00121** Post-Op w/ Shells, Short
- 00122** Post-Op w/ Shells, Long

EPO

The EPO is an economical alternative to our premier Post-Op line. EPOs feature a Quick-Set hinge providing complete range of motion control. *Note: Short < 32" inseam. Long > 32" inseam.*

- 09340** Economy Post-Op, Short
- 09350** Economy Post-Op, Long

EPO Lite

An economical solution for post-operative indications, the EPO Lite features the Quick-Set hinge and has reduced foam coverage for greater breathability and comfort. *Note: Short < 32" inseam. Long > 32" inseam.*

- 09360** Economy Post-Op Lite, Short
- 09370** Economy Post-Op Lite, Long

Quick Fit EPO

The Quick Fit EPO is pre-sized for ease of application in the OR and recovery room.

- 0934X** Quick Fit EPO, Short, S - XL
- 0935X** Quick Fit EPO, Long, S - XL

Tri-Panel Knee Immobilizer

BREG's Tri-Panel Knee Immobilizer is fully adjustable to accommodate varying leg circumferences. Available in three lengths.

- 96500** Knee Immobilizer 16" Length (Universal)
- 96510** Knee Immobilizer 20" Length (Universal)
- 96520** Knee Immobilizer 24" Length (Universal)

X = Size number. See sizing chart on page 41.

Airmesh®

Airmesh is a revolutionary 3-D, latex-free fabric that is half the weight of its neoprene counterpart. It provides exceptional comfort by wicking moisture away from the body, while also allowing for enhanced breathability. Airmesh is recommended for patients who are required to wear a brace for extended periods of time.

Neoprene

BREG's soft goods are made from the highest quality neoprene, allowing them to hold their shape longer than most competitors' products. Elastic piping along the top and bottom of our knee supports increases durability and improves fit.

RoadRunner

The RoadRunner provides excellent control and support for ligament injuries and instabilities. Polycentric adjustable hinges provide extension control from 10° - 40° in 10° increments (10° installed), and flexion control from 45° - 90° in 15° increments. The longer brace length and 4-strap configuration provides extra stability. The Post-Op hinge is available for post-operative rehabilitation following ACL/PCL reconstruction and meniscal repairs. Wraparound version is also available.

Airmesh	1411X	RoadRunner, Airmesh, XS - XXL
	1414X	RoadRunner, Airmesh, Open Back, XS - XXL

	2182X	RoadRunner, Neoprene, Patella Stabilizer, Open Back, XS - XXL
Hinge Cover	73562	Hinge Cover, Airmesh
	73561	Hinge Cover, Neoprene

ShortRunner

A shorter version of the RoadRunner, the ShortRunner provides control and support for most ligament injuries and instabilities. Polycentric adjustable hinges provide extension control from 10° - 40° in 10° increments (10° installed), and flexion control from 45° - 90° in 15° increments. The Post-Op hinge is available for post-operative rehabilitation following ACL/PCL reconstruction and meniscal repairs.

	0672X	Economy Hinged Knee, Neoprene, Open Back, XS - XXL
	0673X	Economy Hinged Knee, Neoprene, Open Back w/ Adjustable Horseshoe, XS - XXL
	1121X	Economy Hinged Knee, Neoprene, Wraparound, Open Back, XS - XXL

Hi-Performance Knit Support, Knee

Features 3-dimensional knitting for a breathable, comfortable fit and even compression. Ideal for mild knee sprains, Chondromalacia, mild patellofemoral osteoarthritis, and Osgood Schlanders disease. Includes metal stays and a contoured silicone patella donut for additional support and stabilization.

3D Knit	2804X	Hi-Performance Knit Support, XS - XXL
---------	-------	---------------------------------------

Knee Support

Provides knee compression and warmth. Also available with additional padding over the patella.

Neoprene	0702X	Knee Support, Neoprene, XS - XXL
	084X0	Knee Support, Neoprene, Padded, XS - XXL
	086X0	Knee Support, Neoprene, Padded, Open Back, XS - XXL

	085X0	Knee Support, Neoprene, Padded, Open Patella, XS - XXL
	087X0	Knee Support, Neoprene, Open Patella, Open Back, XS - XXL

Thigh Support

Offers warmth, compression, and support for hamstring, quadricep, and groin injuries.

Neoprene	1114X	Thigh Support, XS - XXL
----------	-------	-------------------------

X = Size number. See sizing chart on page 41.

PTO®

The PTO (Patellar Tracking Orthosis) is the leading patellofemoral brace on the market today. The patented Cawley Tension Hinge dynamically increases the amount of compression applied laterally to the patella as the knee extends, thus controlling patella subluxation. This unique design normalizes patellar tracking at the most critical point: full extension.

PTO Airmesh®

The PTO is the leading patellofemoral brace on the market today. This brace is ideal for treating patellofemoral pain with or without maltracking or instability.

Airmesh	1419X	PTO, Airmesh, Left, XS - XXL
	1418X	PTO, Airmesh, Right, XS - XXL
	1423X	PTO, Airmesh, Open Back, Left, XS - XXL

	1424X	PTO HP, Neoprene, Right, XS - XXL
	1429X	PTO HP, Neoprene, Open Back, Left, XS - XXL
	1428X	PTO HP, Neoprene, Open Back, Right, XS - XXL

Accessories	7181X	PTO High Performance Sports Cover, S - XXL
	7179X	PTO HP Replacement Bar Kit, Left, XS - XXL
	7180X	PTO HP Replacement Bar Kit, Right, XS - XXL

Lateral Stabilizer

The Lateral Stabilizer's J-shaped buttress provides patellar stabilization and is effective in addressing conditions such as lateral patella subluxation. Superior and inferior straps support the buttress.

Airmesh	1104X	Lateral Stabilizer, Airmesh, Left, XS - XXL
	1105X	Lateral Stabilizer, Airmesh, Right, XS - XXL

Neoprene	0708X	Lateral Stabilizer, Neoprene, Left, XS - XXL
	0707X	Lateral Stabilizer, Neoprene, Right, XS - XXL

X = Size number. See sizing chart on page 41.

Adjustable Horseshoe

The removable horseshoe buttress can be positioned to stabilize the patella from a medial, lateral, inferior, or superior position.

- 0711X Adjustable Horseshoe, XS - XXL
- 0713X Adjustable Horseshoe, Open Back, XS - XXL

Adjustable Donut

A low-profile and cost-effective alternative to other patellar supports. The patella donut can be trimmed to provide patellar support from any direction.

- 0717X Adjustable Donut, Open Back, XS - XXL

Buttress Support

The foam buttress can be positioned inside the neoprene pocket to offer stabilization from virtually any angle.

- 0721X Buttress Support, Open Back, XS - XXL

Patella Stabilizer

Recommended for patellar tendonitis. The fixed inferior buttress offers patella stabilization.

- 0723X Patella Stabilizer, XS - XXL

Patella Tendon Strap

Ideal for treating patellar tendonitis and "jumper's knee."

- 9653X Patella Tendon Strap, XS - XL

X = Size number. See sizing chart on page 41.

Kool Sling

Designed with patient comfort in mind, the Kool Sling features a breathable sling lined with BREG's premium Airmesh® fabric and a comfortable shoulder pad. Universal left or right.

0851X Kool Sling, S - XL
70067 Waist Strap for Shoulder Immobilization

SlingShot 2

The SlingShot 2 combines BREG's premium Kool Sling with a 15° abduction pillow. Ideal for immobilization following Bankart repairs, rotator cuff repairs, capsular shifts, and other shoulder instabilities.

0850X SlingShot 2, S - XL

SlingShot Neutral

The SlingShot Neutral combines BREG's premium Kool Sling with a pillow that places the humerus in neutral rotation, and is indicated for Bankart repairs, SLAP lesion, posterior capsule, anterior and rotator cuff repairs, as well as anterior dislocations and total shoulder reconstructions.

018X0 SlingShot Neutral, S - L
018X5 SlingShot Neutral, XL

Adjustable Sling

The Adjustable Sling pocket length is adjustable for universal sizing.

08401 Adjustable Sling (Universal)
70067 Waist Strap for Shoulder Immobilization

X = Size number. See sizing chart on page 42.

SlingShot

This universal arm/shoulder immobilizer includes a 15° abduction pillow. Ideal for immobilization following Bankart repairs, rotator cuff repairs, capsular shifts, and other shoulder instabilities.

08400 SlingShot (Universal)

Neutral Wedge®

This shoulder immobilizer places the humerus in a neutral position. Ideal for immobilization following Bankart repairs, SLAP lesion, posterior capsule, anterior and rotator cuff repairs, as well as anterior dislocations and total shoulder reconstructions.

- 11917 Neutral Wedge, S/M
- 11918 Neutral Wedge, L/XL
- 11920 Night Pillow Neutral Wedge, S/M
- 11919 Night Pillow Neutral Wedge, L/XL

Shoulder Abduction Pillow

The Shoulder Abduction Pillow provides varying degrees of abduction (10° - 75°). When the pillow is inflated, the arm straps can be applied to limit posterior shift of the shoulder following rotator cuff repairs.

01851 Shoulder Abduction Pillow (Universal)

Shoulder Stabilizer

Provides stabilization for shoulder dislocations, subluxations and global shoulder instabilities. This product assists in limiting abduction and external rotation, yet allows enough mobility to be used during a variety of activities.

1074X Shoulder Stabilizer, S - XXL

X = Size number. See sizing chart on page 42.

Basic Sling

This deep pocket sling is constructed of a durable poly/cotton blend and contains a shoulder pad for maximum patient comfort. Indicated for injuries to the arm, wrist, or hand.

0840X Basic Sling, S - L

Pediatric Sling

This poly/cotton sling has a bear design and thick shoulder pad for additional comfort. Hook and loop shoulder strap closure makes product easy to apply and remove. Indicated for injuries to the arm, wrist, or hand.

08405 Pediatric Sling (9.25"D / 5.5"H)

Shoulder Immobilizer

This deep pocket sling is constructed of a durable poly/cotton blend. Designed to immobilize the arm and shoulder. The waist strap is for shoulder and elbow immobilization.

0849X Shoulder Immobilizer, S - L

X = Size number. See sizing chart on page 42.

T-Scope Elbow

The T-Scope Elbow is ideal for fixed or controlled range of motion in the treatment of ligamentous injuries and stable fractures of the elbow or upper arm. This lightweight, low profile product provides telescoping forearm and humeral bars, extension control from 10° hyperextension to 110°, and flexion control from 10° to 120°. Additionally, the T-Scope Elbow allows lock out ability at any angle and includes a detachable shoulder sling.

- 07250** T-Scope Elbow, Regular, Right (Telescoping humeral bar-extends from 6.5" to 8.5")
- 07251** T-Scope Elbow, Regular, Left (Telescoping forearm bar-extends from 7.5" to 9.5")
- 07252** T-Scope Elbow, Long, Right (Telescoping humeral bar-extends from 6.5" to 8.5")
- 07253** T-Scope Elbow, Long, Left (Telescoping forearm bar-extends from 9.5" to 11.5")

Compact X2K OTS

Often used to support medial/lateral ligamentous instabilities and to protect against hyperextension, the Compact X2K OTS provides ultimate control for extra large arms, and is ideal for contact activities. An elbow cup and protective cover are available as accessories. Contact BREG Customer Relations for ordering requirements.

- 219XX** Compact X2K OTS, Left, XS - XXL (Powdercoat)
- 220XX** Compact X2K OTS, Right, XS - XXL (Powdercoat)
- 1008X** Brace Cover, Compact X2K, S - XXL
- 70058** Protective Cup

HEX Elbow Brace

The HEX Elbow Brace controls range of motion and protects against hyperextension making it the ideal brace for use during high-level activities. With its half-wrap bicep sleeve, the HEX is easy to apply and remove. The posterior straps prevent the brace from migrating, maximizing the product's effectiveness. (Extension : 0° 10° 20° 30° 40° / Flexion : 45° 60° 75° 90°)

- 1448X** HEX Elbow Brace, S - XXL

Neoprene Elbow Sleeve

Provides compression, padding, and warmth to the elbow region. Also available with padding over the olecranon for additional protection.

- 1009X** Neoprene Elbow Sleeve, S - XXL
- 1011X** Neoprene Padded Elbow Sleeve, S - XXL

X = Size number. See sizing chart on page 42.

Tennis Elbow Strap

Padded forearm band provides focused compression to relieve pain caused by tennis elbow and golfer's elbow.

9654X Tennis Elbow Strap, XS - XL

Wrist Lacer

The Wrist Lacer is constructed of durable, perforated suede and moisture wicking polypropylene felt. Single pull lace closure (double pull for 10" version) enhances ease of use. Contains a removable, malleable palmar stay. Available in 8" and 10" versions. Ideal for wrist sprains, strains, and carpal tunnel syndrome.

- 1038X** Wrist Lacer, Left 8", S - XL
- 1039X** Wrist Lacer, Right 8", S - XL
- 1040X** Wrist Lacer, Left 10", S - XL
- 1041X** Wrist Lacer, Right 10", S - XL

Wrist Pro

The Wrist Pro is constructed of lightweight, durable foam laminate and contains a removable, malleable palmar stay. Available in 8" and 10" versions. Ideal for wrist sprains, strains, and carpal tunnel syndrome.

- 1043X** Wrist Pro, Left 8", S - XL
- 1044X** Wrist Pro, Right 8", S - XL
- 1045X** Wrist Pro, Left 10", S - XL
- 1046X** Wrist Pro, Right 10", S - XL

Wrist Brace (Cock-Up)

Ideal for wrist sprains, strains, and carpal tunnel syndrome. Padded wrist brace includes removable malleable palmar stay for support and immobilization.

- 1028X** Wrist Cock-Up Splint, Left, XS - XL
- 1027X** Wrist Cock-Up Splint, Right, XS - XL

X = Size number. See sizing chart on page 42.

Wrist Lacer with Thumb Spica

Ideal for sprains, strains, scaphoid injuries, carpal tunnel, Gamekeeper's Thumb, and deQuervain's syndrome.

- 1037X** Wrist Lacer Right 8", S - XL
- 1036X** Wrist Lacer Left 8", S - XL

Wrist Pro with Thumb Spica

Ideal for sprains, strains, scaphoid injuries, carpal tunnel, Gamekeeper's Thumb, and deQuervain's syndrome.

- 1035X** Wrist Pro Right 8", S - XL
- 1034X** Wrist Pro Left 8", S - XL

Wrist Splint with Thumb Spica

Includes removable, malleable palmar stay and thumb spica for immobilization of the wrist and thumb MP and CMC joints.

- 1029X** Wrist Cock-Up Splint w/ Thumb Spica, Left, XS - XL
- 1030X** Wrist Cock-Up Splint w/ Thumb Spica, Right, XS - XL

Thumbster

The lightweight, low profile Thumbster contains a circumferential, malleable thumb stay and a unique figure-8 strapping system to enhance thumb support. Indicated for sprains, tendonitis, arthritis, and deQuervain's syndrome.

- 10266** Thumbster Universal (Left / Right)

X = Size number. See sizing chart on page 42.

BOA® Spine Bracing

The BOA family of bracing products from BREG addresses a full range of clinical indications from post-operative support and stabilization to acute low-back pain relief.

The BOA braces were designed with patient comfort and ease-of-use in mind, and feature the patented Lacer Compression System. This unique system utilizes a multiple tear-drop channel design, high tension cords, and a simple pull strap, allowing the patient or clinician to effectively tighten the orthosis with minimal exertion and body motion.

BOA Classic

BOA Classic provides rigid anterior and posterior compression from L1 - S1. The BOA Classic is available in 3 versions and contains a removable, moldable anterior panel.

- 6004X BOA Low-Profile 8", S - XXXL
- 6003X BOA Regular 10", S - XXXL
- 6005X BOA Low-Profile 8" 75°, S - XXXL (for pear shaped torsos)

BOA Accessories

- 60000 Lordotic Foam Inserts 7°
- 60001 Lordotic Foam Inserts 10°
- 60002 Lordotic Foam Inserts 12°
- 60122 BOA Anterior Panel, S - M
- 60127 BOA Anterior Panel, L - XXXL
- 60019 BOA Anterior Panel Liner, S - M
- 60120 BOA Anterior Panel Liner, L - XXXL
- 60128 BOA Extension Panel

BOA with Chairback

This brace combines the BOA Classic design with a rigid moldable chairback frame to provide support from T9 -S1. Designed to accommodate a 3-stage treatment regiment:

- Stage 1: Post-operative use of BOA with rigid chairback piece, compression belt, and rigid anterior panel
- Stage 2: Remove the chairback piece for compressive support during a progressive rehabilitation protocol
- Stage 3: Remove rigid anterior panel

- 6002X BOA with Chairback 8", S - XXXL
- 6001X BOA with Chairback 10", S - XXXL

BOA Accessories

- 6008X Chairback Accessory, Rigid Frame, S - XL
- 6009X Chairback Accessory, Short Rigid Frame, M - XL
- 6013X BOA Chairback Liner, S- XL

X = Size number. See sizing chart on page 42.

BOA Duel TLSO

BOA Duel TLSO provides full-circumferential rigid support from the T2/T3 scapular thoracic region to the sacrococcygeal junction. It features rigid moldable anterior and posterior panels, a telescoping sternal Y-Bar, and dual lacer compression pads.

6000X BOA Duel TLSO, S - XXL

BOA Lite

Incorporating all features of the BOA Classic low-profile design, but without the rigid anterior panel, the BOA Lite offers a lightweight, comfortable bracing option, providing mild lumbosacral support from L1 - L5.

6006X BOA Lite, S - XXL

Elastic Lumbar Support

The Elastic Lumbar Support provides compression for lumbar stabilization. A removable posterior foam pad is included for additional support.

1015X Elastic Lumbar Support, XS - XXL

Back Support with Side Pulls

This brace features durable elastic construction with a unique compression molded lumbar pad, providing excellent support. The additional side pulls allow for greater support and comfort.

0733X Back Support w/ Side Pulls, XS - XXL

X = Size number. See sizing chart on page 42.

BOA SI Belt

The BOA SI Belt stabilizes the sacroiliac joint to reduce pain and swelling.

6007X BOA SI Belt, S - L

Cervical Collar

The universal cervical collar is constructed of 3" medium density foam for comfortable, uniform support. Includes a washable sockinette. Indicated for cervical sprains, strains, and post-operative rehabilitation.

11286 Cervical Collar (Universal)

Clavical Brace

The Clavicle Support includes fully padded straps with hook and loop closure. A movable D-ring provides customizable fit. Ideal for clavicular fractures and postural problems.

11296 Clavical Support, S/M
11297 Clavical Support, L,XL

X = Size number. See sizing chart on page 42.

Vectra™ Premium Tall

The Vectra Premium Walker features a contoured liner with a moisture wicking inner layer, along with BREG's patented Airmesh® material for maximum comfort and breathability. The Vectra Premium's unique feature the removable heel clip accommodates either closed or open back heel applications. Vectra's Dual-Axis Rocker bottom encourages a more natural gait, even when the walker is rotated externally during use. The wide footbed can accommodate swelling and post-operative bandages for maximum comfort. The aluminum upright can be adjusted for a more customized fit.

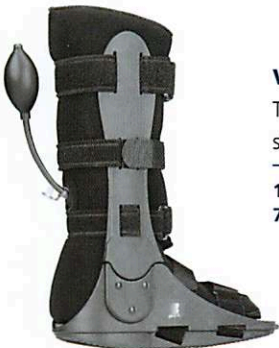

-
- 2840X** Vectra Premium, Tall, XS - XL
773XX Vectra Premium, Tall Liner Kit, XS - XL
778XX Insole / Foam Footbed, XS - XL

Vectra™ Lite Tall

The Vectra Lite Walker, an economy version of the Vectra Premium, features an open-celled foam liner that is contoured for maximum patient comfort. The Vectra Lite has an open back and also features Vectra's Dual-Axis Rocker bottom which encourages a more natural gait, even when the walker is rotated externally during use. The wide footbed can accommodate swelling and post-operative bandages for maximum comfort.

-
- 2841X** Vectra Lite Tall, XS - XL
775XX Vectra Lite, Tall Liner Kit, XS - XL
777XX Heel Clip, XS - XL
778XX Insole / Foam Footbed, XS - XL

Venture Air Tall

The Venture Air Tall contains adjustable air chambers that provide compression which increases stability and decreases pain and edema.

-
- 1212X** Venture Air, Tall, S - L
7450X Venture Air Tall Liner Kit, S - L

X = Size number. See sizing chart on page 43.

Vectra™ Premium Short

The Vectra Premium Walker features a contoured liner with a moisture wicking inner layer, along with BREG's patented Airmesh® material for maximum comfort and breathability. The Vectra Premium's unique feature, the removable heel clip which accommodates either closed or open back heel needs/applications. Vectra's Dual-Axis Rocker bottom encourages a more natural gait, even when the walker is rotated externally during use.

- 2842X** Vectra Premium, Short, XS - XL
- 774XX** Vectra Premium, Short Liner Kit, XS - XL
- 778XX** Insole / Foam Footbed, XS - XL

Vectra™ Lite Short

A shortened version of the Vectra Lite Tall. The Vectra Lite Walker, an economy version of the Vectra Premium, features an open-celled foam liner that is contoured for maximum patient comfort. The Vectra Lite has an open back and also features Vectra's Dual-Axis Rocker bottom which encourages a more natural gait, even when the walker is rotated externally during use.

- 2843X** Vectra Lite, Short, XS - XL
- 776XX** Vectra Lite, Short Liner Kit, XS - XL
- 777XX** Heel Clip, XS - XL
- 778XX** Insole / Foam Footbed, XS - XL

Venture Air Short

Adjustable air chambers increase stability and decrease edema. Ideal for stable foot fractures and other foot injuries.

- 1213X** Venture Air, Short, S - L
- 7011X** Venture Air Short Liner Kit, S - L

Controlled Range of Motion Walker

The Controlled Range of Motion (CROM) Walker offers range of motion from 0° - 30° of dorsiflexion and plantarflexion in 10° increments. The rocker bottom makes for a near normal gait. Ideal for Achilles tendon repairs.

- 0930X** Controlled Range of Motion Walker (CROM), S - L
- 70123** CROM Liner Kit, S/M
- 70124** CROM Liner Kit, L

Pin Cam Walker

The Pin Cam Walker provides support and range of motion control with ROM settings between 45° plantarflexion and 45° dorsiflexion in 10° increments. Ideal for Achilles tendon repairs.

- 0955X** Pin Cam Walker, S - L
- 70123** Pin Cam Walker Liner Kit, S/M
- 70124** Pin Cam Walker Liner Kit, L

X = Size number. See sizing chart on page 43.

Lace-Up Ankle

An excellent alternative to athletic tape, the Lace-Up Ankle is indicated for sub-acute lateral and medial ankle sprains and chronic ankle instabilities. Ballistic nylon base and strapping provide comfort, strength and durability. Not CE Marked.

9706X Lace-Up Ankle, XXS - XXL

Ultra Ankle

Ultra Ankle braces feature a full circumference rigid cuff and dynamic hinge that help restrict excessive rotation and inversion while enabling plantar- and dorsi-flexion.

The Ultra Ankle is available in three versions to provide varying levels of support. The GridIron is engineered with maximum rigidity for ultimate protection, while the FullCourt provides a more flexible fit for greater agility, and the XT offers the perfect match between support and comfort. Indicated for high and low ankle sprains. Universal left or right. Not CE marked.

1107X Ultra Ankle GridIron, S - L (Call for Availability)
1110X Ultra Ankle FullCourt, S - L (Call for Availability)
1102X Ultra Ankle XT, S - L

Ankle Brace Lock (ABL)

The ABL is ideal for mild to moderate inversion and eversion injuries and chronic ankle instabilities. The body of the brace is made of a breathable, stretch nylon/lycra weave, allowing it to fit in a compact-style shoe. Two no-stretch stirrup straps provide extra support.

1017X Ankle Brace Lock (ABL), XS - XXL

KoolAir Stirrup

The KoolAir Stirrup provides rigid support, compression and optional cold therapy for acute ankle sprains. Fits both left and right ankles and is universally sized.

11180 KoolAir Ankle Stirrup (Universal)
71680 Air-Gel Replacement
71690 Heel Pad Replacement

X = Size number. See sizing chart on page 43.

Plantar Fasciitis Night Splint

The Plantar Fasciitis Night Splint features adjustable bilateral dorsiflexion straps for controlled application of stretch. An extra thick, washable liner and padded straps enhance patient comfort. A toe wedge is included for additional stretch on the plantar fascia, and the slip resistant sole aids in patient safety. Indicated for plantar fasciitis, ankle with a planter flexion contracture, and Achilles tendonitis. Fits left or right.

1117X Plantar Fasciitis Night Splint, S - L

Post-Op Shoe

Designed for a variety of post-op and post-trauma applications, the ridged sole provides support and shock absorption, while the soft insole and inner lining enhances patient comfort. Trimmable straps allow for easy fitting on a wide variety of patients.

1119X Post-Op Shoe, Mens, S - L
 1118X Post-Op Shoe, Womens, S - L

Cast Boot

The durable canvas Cast Boot features a rocker sole that allows for a natural gait during ambulation. Indicated for casted lower leg fractures (Length measured from cast heel to toe).

1138X Cast Boot, XS - XL

Silicone Heel Cups

Molded Silicone Heel Cups provide shock absorption in the heel area to address heel spurs, plantar fasciitis, Achilles tendonitis, and heel pain as well as arthrosis in the ankle, knee and hip joint. Soft blue center reduces strain on pain sensitive areas.

1109X Silicone Heel Cups, S - L

X = Size number. See sizing chart on page 43.

Polar Care® Kodiak®

The Polar Care Kodiak is a user-friendly, motorized cold therapy system that fuses the rock-solid dependability patients demand into a lightweight, compact system that is quiet and easy to use. The Kodiak features an advanced filtration system and robust pump for optimal system performance. *Note: Kodiak may only be used with Intelli-Flo Pads.* Not CE Marked.

WrapOn Polar Pads

BREG's unique WrapOn Polar Pads feature elastic straps that conveniently wrap around the joint and affix to the foam-backed pad, eliminating the need for foam or ace wraps. WrapOn Pads are compatible with the Polar Care 500, Polar Care 300 and the Polar Care Cub only. PLEASE NOTE: A barrier must be applied between the WrapOn Polar Pad and the patient's skin. Polar Dressings that provide complete coverage between the pad and the patient are available.

Note: WrapOn Polar Pads may not be used with the Polar Care Kodiak.

Polar Pads

BREG Polar Pads are designed to distribute cold throughout the entire pad surface. Available in a variety of styles to accommodate all major areas of the body, BREG's Polar Pads are highly durable, and most are available in both sterile and non-sterile versions. PLEASE NOTE: A barrier must be applied between the Polar Pad and the patient's skin. Polar Dressings providing complete coverage between the pad and the patient are available.

Note: Polar Pads may not be used with the Polar Care Kodiak.

WrapOn Gel Pads / Gel Wraps

Gel Pads and Gel Wraps are the easiest and most convenient way to apply cold to minor bruises and sprains. The Gel Pads are designed to be stored in the freezer for intermittent cold therapy applications. WrapOn Gel Pads integrate gel in the pad design, and also feature elastic straps to hold the pad in place as well as offer compression. Gel Wraps have external pockets that hold re-freezable gel packs. The gel packs can also be used when heat application is required. Available only in U.S., Canada and Mexico.

WrapOn Gel Pads

- 10510 WrapOn Gel Pad, Regular Oval
- 10525 WrapOn Gel Pad, Large Oval
- 10520 WrapOn Gel Pad, Horseshoe

To The Customer

At BREG, we are committed to total customer care. Each of our friendly Customer Relations representatives receives extensive training on all BREG products and practices, ensuring that you always get the best service possible. From our diverse line of premium medical devices to our exceptional staff, we strive to exceed your expectations.

BREG's Customer Focus

Commitment • Integrity • Dedication

Customer Relations

Customer Relations representatives are available Monday through Friday, 6:00 a.m. to 5:00 p.m., Pacific Time.

Phone 800.321.0607 800.897.BREG (2734)

Fax 800.329.2734 800.959.BREG (2734)

Your satisfaction is guaranteed.

If, at any time, you are not completely satisfied with a BREG product within the designated warranty period, please contact our Customer Relations department and give us the opportunity to make it right.

Shipping

We offer all levels of delivery service from overnight to ground. Domestic orders for catalog items received prior to 4:00 p.m. Pacific Time will be shipped the same day; however all overnight and FedEx orders must be received prior to 3:00 p.m. Pacific Time in order to ship the same day.

- Custom bracing orders will ship within 24 hours.
- FUSION color/patterns will ship within 24 hours. Custom color/pattern orders will ship within 72 hours.
- Custom logo orders will ship within 48 hours.

Warranty/Return Policy

BREG products are warranted for manufacturing or materials defects. Please contact Customer Relations if you have questions regarding the warranty. Before returning a product, please contact our Customer Relations department at 800.321.0607 or 800.897.BREG (2734) for a return authorization number.

XX = 60	XXL	27" - 31" (69 - 79 cm)	19.75" - 22" (50 - 56 cm)

Circumference taken at mid-bicep and elbow.

Note: When ordering for a right arm you must place an order for a left brace, and when ordering for a left arm you must place an order for a right brace.

HEX ELBOW

Size #	Size	Arm Measurement
X = 2	S	9" - 10.5" (23 - 27 cm)
X = 3	M	10.5" - 12" (27 - 30 cm)
X = 4	L	12" - 13.5" (30 - 34 cm)
X = 5	XL	13.5" - 15" (34 - 38 cm)
X = 6	XXL	15" - 16.5" (38 - 42 cm)

Circumference taken at mid-bicep.

WRIST BRACE / WRIST SPLINT

Size #	Size	Wrist Measurement
X = 1	XS	< 6.5" (17 cm)
X = 2	S	6.5" - 7.25" (17 - 18 cm)
X = 3	M	7.25" - 8.25" (18 - 21 cm)
X = 4	L	8.25" - 9" (21 - 23 cm)
X = 5	XL	9" - 10" (23 - 25 cm)

Circumference taken at wrist.

SHOULDER STABILIZER

Size #	Size	Chest Measurement
X = 2	S	34" - 38" (86 - 97 cm)
X = 3	M	38" - 42" (97 - 107 cm)
X = 4	L	42" - 46" (107 - 117 cm)
X = 5	XL	46" - 51" (117 - 130 cm)
X = 6	XXL	51" - 56" (130 - 142 cm)

Circumference taken at level of axilla.

NEUTRAL WEDGE

Size	Forearm Length
S/M	< 14.5" (37 cm)
L/XL	> 14.5" (37 cm)

Measurement taken from olecranon to end of fist.

ELBOW SLEEVE

Size #	Size	Arm Measurement
X = 2	S	8" - 9" (20 - 23 cm)
X = 3	M	9" - 10" (23 - 25 cm)
X = 4	L	10" - 11" (25 - 28 cm)
X = 5	XL	11" - 12" (28 - 30 cm)
X = 6	XXL	12" - 13" (30 - 33 cm)

Circumference taken at elbow joint.

TENNIS ELBOW STRAP

Size #	Size	Forearm Measurement
X = 1	XS	8" - 9" (20 - 23 cm)
X = 2	S	9" - 10" (23 - 25 cm)
X = 3	M	10" - 11" (25 - 28 cm)
X = 4	L	11" - 12" (28 - 30 cm)
X = 5	XL	12" - 14" (30 - 36 cm)

Circumference taken at wrist.

WRIST LACER / WRIST PRO

Size #	Size	Forearm Measurement
X = 2	S	6" - 7" (15 - 18 cm)
X = 3	M	7" - 8" (18 - 20 cm)
X = 4	L	8" - 9" (20 - 23 cm)
X = 5	XL	9" - 10" (23 - 25 cm)

Circumference taken at wrist.

SPINE BRACING

BOA

Size #	Size	Waist Measurement
X = 2	S	25" - 30" (63 - 75 cm)
X = 3	M	30" - 35" (75 - 88 cm)
X = 4	L	35" - 40" (88 - 100 cm)
X = 5	XL	40" - 45" (100 - 113 cm)
X = 6	XXL	45" - 50" (113 - 125 cm)
X = 7	XXXL	50" - 55" (125 - 138 cm)

Circumference taken at waist level.

BOA LITE

Size #	Size	Waist Measurement
X = 2	S	26" - 32" (65 - 80 cm)
X = 3	M	32" - 38" (80 - 95 cm)
X = 4	L	38" - 43" (95 - 108 cm)
X = 5	XL	43" - 48" (108 - 120 cm)

Circumference taken at waist level.

BOA SI BELT

Size #	Size	Waist Measurement
X = 2	S	25" - 35" (63 - 88 cm)
X = 3	M	35" - 45" (88 - 113 cm)
X = 4	L	45" - 55" (113 - 138 cm)

Circumference taken at waist level.

LUMBAR SUPPORT

Size #	Size	Waist Measurement
X = 1	XS	10" - 24" (51 - 61 cm)
X = 2	S	24" - 30" (61 - 76 cm)
X = 3	M	30" - 36" (76 - 91 cm)
X = 4	L	36" - 42" (91 - 107 cm)
X = 5	XL	42" - 50" (107 - 127 cm)
X = 6	XXL	50" - 56" (127 - 142 cm)

Circumference taken at waist level.

BACK SUPPORT W/ SIDE PULLS

Size #	Size	Waist Measurement
X = 1	XS	10" - 24" (51 - 61 cm)
X = 2	S	24" - 30" (61 - 76 cm)
X = 3	M	30" - 36" (76 - 91 cm)
X = 4	L	36" - 42" (91 - 107 cm)
X = 5	XL	42" - 50" (107 - 127 cm)
X = 6	XXL	50" - 56" (127 - 142 cm)

Circumference taken at waist level.

FOOT / ANKLE BRACING

VECTRA WALKER

Size #	Size	Men	Women
